Dear Joe:

Subject: Contracts PR-8200 and PI-624

25X1A

25X1A

Some time ago we discussed the fact that in the execution of the hardware on the above contracts we had used some of our standard Electronic Products Division vernistats and laser components and that they should be included in allowable costs at their normal list price. However, in order to eliminate the possibility of a "double profit" some fee adjustment would be necessary. We suggest that on PR-8200 a total of [REDACTED] be allowed with a fee reduction of [REDACTED]. On PI-624 we suggest an allowance of [REDACTED] with a fee reduction of [REDACTED].

Itemized listings of the units involved are attached.

Please call me if you need additional information.
